

PHIT Coalition

July 22, 2020

The Honorable Mitch McConnell
Senate Majority Leader
United States Senate
Washington, DC 20510

The Honorable Chuck Schumer
Senate Democratic Leader
United States Senate
Washington, DC 20510

The Honorable Nancy Pelosi
Speaker of the House
U.S. House of Representatives
Washington, DC 20515

The Honorable Kevin McCarthy
Republican Leader
U.S. House of Representatives
Washington, DC 20515

Dear Leader McConnell, Speaker Pelosi, Leader Schumer and Leader McCarthy:

Thank you for your tireless efforts targeted at the COVID-19 health care crisis. As you strive to further stimulate the U.S. economy, we want to call your attention to an important bipartisan and widely supported effort aimed at promoting physical fitness as a form of low-cost preventative health care.

Since the pandemic, the fitness industry was the first to shutter its doors and continues to be repeatedly forced to close when additional coronavirus surges spike. Youth sports, health clubs, fitness studios and much of outdoor recreation were early casualties of the economic shutdown. Under the circumstances, many of these businesses and organizations are struggling to survive in an ever-changing COVID landscape. While all are working to re-engineer service lines the economic aftershocks will be daunting for years to come.

Equally troubling, shelter-in-place orders have caused a precipitous decline in exercise rates – the single most critical function aimed at preventing acute respiratory distress syndrome (ARDS) encountered by COVID-19 patients.¹ This trend line affects all age groups. Industry survey data found a reduction in activity rates from 73 percent to 25 percent this past April. To help get Americans moving again and assist the industry in its recovery efforts, we urge you to include *Personal Health Investment Today Act*, S. 680 and H.R. 1679, in the upcoming stimulus package. The legislation commonly referred to as the “PHIT Act” is sponsored by Senators John Thune (R- SD) and Chris Murphy (D-CT); as well as Representatives Ron Kind (D-WI) and Mike Kelly (R-PA). Combined, the two bills boast over 100 cosponsors, and an earlier version passed the House in 2018 by a 277-142 vote as part of a larger health care package.

PHIT would incentivize health by providing a 10 to 37 percent discount on physical activity expenditures through use of pre-tax medical accounts. Youth sports costs, health club dues, at-home fitness programs,

¹ Survey conducted by [Evidation Health](#), collecting data from 185,000 individuals across all 50 states

outdoor recreation fees, sports, and fitness equipment, and other expenses directly related to active lifestyles would be eligible for payment using an HSA or FSA. Currently, HSA/FSA account holders can pay for treatment of disease with their pre-tax money, but not for prevention via physical activity.

Pursuant to its widespread support, the proposal also has been incorporated into a larger measure recently introduced by Representative Max Rose (D-NY), titled the *COVID-19 Youth Sports and Healthy Working Families Relief Act* (H.R. 7562).

The PHIT Act helps harness the energy and benefits that sports and an active lifestyle bring to all of America's communities. Our collective spirit unites people, which has often been described as an early indicator of economic recovery. Most important, however, are the physiological benefits derived from exercise that help stave off severe COVID-19 complications. A physically active population has far better prognoses and is at lower risk of experiencing the more severe COVID-19 symptoms than an inactive population.

Given these findings, we look forward to working with you as Congress considers the upcoming economic stimulus package. With almost 4,000 stakeholders united in this effort, we urge you to include legislation targeted toward:

- 1) Improving health in America.
- 2) Reducing the strain on our overall healthcare system; and
- 3) Providing consumer-driven economic stimulus solutions to help active lifestyle industries harmed by the pandemic.

Thank you for your consideration. If you have any questions or need additional information, please do not hesitate to contact Bill Sells, Senior Vice President Government and Public Affairs for the Sports and Fitness Industry Association, at 202-262-6444 or bsells@sfia.org or Jeff Perkins, Assistant Vice President of Government Relations for the International Health, Racquet & Sportsclub Association at 781-854-7468 or jdp@IHRSA.org
