

CASE STUDY

TARGETED TARIFF RELIEF

AT A GLANCE

WHO BENEFITTED?

- Sports & Fitness equipment manufacturers of various products.

WHAT HAPPENED?

- SFIA worked to file over 150+ MTB petitions for sports & fitness equipment, saving SFIA Members up to \$75 million in tariffs (\$40 million pending enactment).

SNAPSHOT OF PRODUCTS

- Basketballs
- Batting Gloves
- Volleyballs
- Golf Club Components
- Boxing Gloves & Equipment
- Exercise & Yoga Mats
- Tennis Rackets
- Pickleball Balls & Paddles
- Exercise Cycle
- & Much More!

Note: MTB needs to be renewed every 2 years.

THE STORY

Tariffs, affecting hundreds of sports & fitness products, have been implemented to 'level the playing field' for domestic & overseas production. These tariffs have taken its toll on SFIA members.

SFIA identified the Miscellaneous Tariff Bill (MTB), which provides tariff relief on products not made domestically (in the USA). Since 2013, SFIA has worked to file 150+ MTB petitions requesting relief on sports & fitness products on behalf of SFIA Members & the industry. Each petition is capped at \$500,000 in annual relief, for up to \$75 million in industry tariff relief (\$40 million pending enactment).

A huge win for SFIA Members!

SFIA'S QUICK SOLUTION

- SFIA, on behalf of its members, worked to file MTB petitions on products that are not produced in the USA to receive tariff relief.
- Once enacted, SFIA Members who make these products, are eligible for tariff relief up to \$500,000 per petition/product.

IN SHORT...

SFIA HELPS MEMEBRS SAVE \$\$\$ THROUGH TARGETED TARIFF RELIEF
