Mr. Harold Daggett President International Longshoremen's Association 5000 West Side Ave. North Bergen, NJ 07047 Mr. David Adam Chairman and CEO United States Maritime Alliance, Ltd. 125 Chubb Avenue, Suite 350NC Lyndhurst, NJ 07071

RE: Resumption of Port Labor Negotiations

Dear Mr. Daggett and Mr. Adam:

On behalf of the undersigned organizations representing American manufacturers, farmers and agribusinesses, wholesalers, retailers, restaurants, importers, exporters, distributors, transportation and logistics providers, and other supply chain stakeholders, we are writing to urge both the International Longshoremen's Association and the United States Maritime Alliance to return to the bargaining table with the goal of reaching a new labor contract before the new Jan. 15 contract expiration date. It is imperative for the parties to resume negotiations and remain at the table until a new contract is reached.

We know significant issues remain between the parties. However, we continue to believe the only way to resolve these issues and come to an agreement is to actually stay at the negotiating table. The continuing start and stop of the negotiations leads to further uncertainty in the supply chain, which continues to cause challenges. The three-day strike in October had a significant impact on supply chain stakeholders that rely on the East Coast and Gulf Coast ports. The additional costs from mitigation efforts as well as post-strike resumption are still being felt. Companies have continued to implement mitigation strategies because of the ongoing threat of another strike in mid-January if a new contract is not achieved.

We understand that automation and technology continues to be the biggest issue of disagreement between the parties. We continue to believe there is a path forward for the parties to address this issue. It is critical that our ports and terminals have the ability to modernize their systems and processes in order to remain globally competitive and be able to handle the continuing rise of trade volumes, both imports and exports, through our ports. Modernization can only happen through true partnership between labor and management, as well as the other supply chain stakeholders that rely on these ports. Modernization efforts will benefit all parties and are essential to address current and future throughput issues.

We firmly believe the remaining issues can only be resolved by returning to the negotiating table and remaining until a final deal is complete.

Sincerely,
